## Manaja Styven Ranaivoson

### Node.js Backend Developer

Passionate backend developer with intermediate expertise in JavaScript, Node.js, Express, MongoDB, MySQL, and Git. A rigorous self-taught individual, I enjoy designing effective solutions to complex problems. Naturally curious, I am constantly seeking new technical challenges.

## Education

### Self-taught

Since 2025 [Self-training](#) Online

Self-directed learning of backend technologies such as Node.js, Express, MongoDB, and MySQL through personal projects, online tutorials, and official documentation. Practical application through real-life projects available on GitHub.

## Work experience

### AI Trainer (Backend)

2025 [Outlier AI](#) Online

Participated in training artificial intelligence models for backend development cases. Code analysis, solution validation, and optimization of AI-generated responses. Collaborated with an international team remotely using collaborative tools like Slack and Notion.

## Skills

### Technical skills

- Node.js / Express
- MongoDB / MySQL
- Git & GitHub
- API REST
- Postman / JWT

### Personal skills

- Independent and curious
- Problem-solving
- Quick learner
- Teamwork

## Technologies

JavaScript

Node.js

Express

MongoDB

MySQL

Git
